

Dear sailors,

SC Uskok is more than fifty years old and has a rich history and vast experience in hosting various events, from Optis to IMS. Some of you probably know that we hosted 470 Europeans in 1999., 470 Worlds in 2004. and 420 Europeans in 2004. In 2008. we will be the hosts of 420 junior Europeans, and we are bidding now for the 470 junior Europeans also in 2008.

Zadar area is known for its great sailing conditions all year long – mild climate and moderate winds. The race course is in front of the club, the fleet can reach it in 10-15 minutes. Beginning of November temperatures are around 18 degrees, the sea is still warm.

Zadar is situated in the middle of Adriatic coast and can easily be reached by highway from the North or by ferry from Italy. The club itself is in a tourist area. Hotels, a youth hostel and apartments are within a walking distance. November is not high season so the prices are sailors-friendly.

As you know, Croatia has very good sailors in Laser, Laser Radial, 470 and Finn, we hope that their names are a good enough invitation for you!

Hope to see you in November, feel free to e-mail us for more information.

Kind regards,
Organizing Committe,
SC Uskok.
